BOOK SYNOPSIS

Freelancer Kendall Jennings writes fluff pieces for womens magazines. When a horrific massacre occurs at Cafe Amaretto, she scores an exclusive interview with a survivor. Suddenly, shes the go-to reporter for the crime. Investigating veteran detective Lance OGrady and his partner Trip are tasked with finalizing the open and shut case. Seven people are dead at the hands of an unprovoked killer wielding an axe. It seems simple. Then another mass killing occurs. This time, arson, and ten eldercare facility residents die in the blaze. Both killers die at the scene. The crimes have no motive, and Lance OGrady is left wondering how evil can strike twice. Then it happens again. Even more shocking: a mother with a gun goes on a rampage at a family birthday party. The killers share one odd detail: none have a murderers profile. No history of violence, no connection to terrorists, no vendettas. Ordinary citizens suddenly became killers. Drawn deeper inside the crime investigation, Kendall finds herself not only clashing with OGrady but also struggling with old demons. OGrady resents Kendalls involvement as her presence provokes memories of a personal tragedy. OGrady and Kendall are caught in a plan greater reaching than the crimes. They just dont know it. Someone is sending a message. And unless they can decipher the meaning, very soon, many more will die. Deadly Messengers is a page-turning thriller taking readers into the minds of mass killers in all their disconcerting madness. It poses the question: Is there a killer lurking inside everyone? The answer could prove more frightening than the crimes"
